Front-end Developer — Tashkent, Uzbekistan Muhammadamin.uz

EXPERIENCE

CodeCrafters Team, Feb 2023 – July 2023 as Front-end Junior Developer.

The main objective of the project I am currently working on is to create web platforms where developers can sell their self-made projects or users can purchase websites tailored to their needs:

- Developing projects in both backend and frontend capacities.
- Working as a team lead in the projects.
- Working with technologies such as React.js, JavaScript, Sass, MDB, and Redux.
- Working as a frontend developer with React.js.
- Collaborating with the team on GitHub, including working on schemas, learning and teaching testing processes.
- Collaborating with frontend developers to create websites where developers can sell their self-made projects or users can purchase websites tailored to their needs.
-

Najot Ta'lim, April 2023 – May 2023 as Fulls-stack Developer.

To order a room at the hotel and get acquainted with the rooms:

- Duration of Implementation: 1 month.
- During the practical exercises in Safety Education, I will create the backend part of a hotel website using Node.js and Mongoose.
- Features: Creating RESTful APIs, connecting with MongoDB database, creating capabilities to CRUD operation.
- Collaboration with Frontend Developers: Collaborating with frontend developers to discuss and work together on the installation, requirements, and capabilities of the project.

EDUCATION

Najot Ta'im, 2022 – 2023, Full Stack **–** GPA 3.9 / 4.0
It Center, 2021 – 2022, Full Stack **–** GPA 3.2 / 4.0

LANGUAGES & TECHNOLOGIES

- Prior experience: Reactjs, JavaScript, Css
- Prodicent: JavaScript, TypeScript, SQL, HTML/CSS
